LEGEND V HIGH PERFORMANCE

CNC TABLE PLASMA CUTTING MACHINE

H Match with
High Plasma Power Source

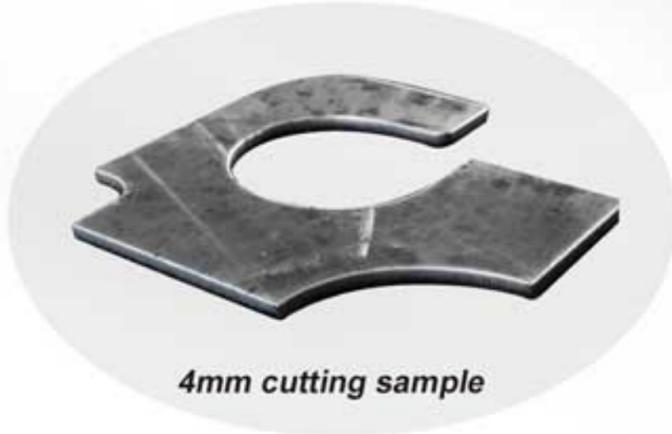

Cutting sample

High quality for thin and thick metal plate cutting!

The Legend V is a newly upgraded, high-performance table cutting machine that uses a modular design for easy function expansion. Optional professional industrial control system and high sensitivity torch height control system. It not only retains the long life and multi-functional design concept of the legend series, but also optimizes the transmission structure and the weighted bed.

4mm cutting sample

16mm cutting sample

■ Anti-collision device

■ Table with fully closed design.

■ Technical Parameters

Model	Legend V
Input voltage	220/110V
Frequency	60/50Hz
Input power	800 W
Display screen	LCD 10.3 color screen controller
Effective X axis stroke	1500mm
Effective Y axis stroke	3000mm
Machine size	2160mm*4150mm
Maximum running speed	18000 mm/min
Maximum cutting speed	8000 mm / min (Platen cutting 8000, THC cutting 4500)
Maximum Z axis stroke	115mm
Cutting thickness	1-30mm
Cutting speed	Depending on plasma power source and the wall thickness of the plate
Cutting table type	Water table
Repeatability	0.1mm
Cutting mode	Plasma cutting
Software	FastCAM Basic Version
Machine color	Optional
