

# Air compressor

## 22kw-20bar

22kw-2.0Mpa single air compressor technical parameters

Maximum exhaust pressure	2.0Mpa
Volume flow	2.0min
Exhaust gas temperature	Ambient temperature $\pm 15^{\circ}\text{C}$ or less
transfer method	Directly connect the driver
cooling method	air cooling
noise	60~70 $\pm 2$ db
Air compressor gas oil content	$\leq 3$ ppm
Motor Power	22kw
Voltage frequency	380V/50Hz
Start method	Frequency conversion start
Rated speed	2950rpm
Insulation class	F
exhaust port diameter	G1
